52	Jessica	Stone	MPH	<a href="mailto:jessicastone258@gmail.com">jessicastone258@gmail.com</a>		Evaluation of Mosquito Control Methods in Neighborhoods Varying in Socioeconomic Status	Research	List vector born diseases prevalent within the United States and why vector control is important for public health	Formulate vector control evaluation methods	Discuss areas where social disparities may exist within city services, such as mosquito abatement
4	Christine	Rutlen	BA	<a href="mailto:crutlen@uams.edu">crutlen@uams.edu</a>		Association of Agricultural Waste Burning with Asthma Exacerbations in Two Arkansas Counties	Research	Explain the health effects of agricultural waste burning.	Analyze environmental causes of asthma exacerbation.	Determine contributions of air pollution to asthma exacerbations.
51	Kerry	Krell	MPH, CHES	<a href="mailto:kerry.krell@arkansas.gov">kerry.krell@arkansas.gov</a>	Ashley Whitlow	Reducing Hazardous Chemical Exposures in Arkansas's Child Care Facilities: Phase 1 Implementation of the Choose Safe Places (CSP) Pilot Program	Program/best practice	Describe the purpose of the CSP Pilot Program in Arkansas.	Identify the methods used in Phase 1 implementation of the CSP Pilot Program.	Identify primary avenues for inclusion of the CSP Pilot Program into the childcare facility licensing process in Arkansas.
39	Dale	Paulson	BS Biology, BS Chemistry, ADH Laboratory Manager	<a href="mailto:dale.paulson@arkansas.gov">dale.paulson@arkansas.gov</a>	Aubrey Hough, MD, DSc	Surveillance of Bat Rabies in Arkansas (1998 - 2017): Public Health Implications	Research	Discuss the principles underlying bat submissions for rabies virus testing. Discuss how the bat species is determined, recorded and evaluated statistically.	Demonstrate the numbers and percentage of bat species submitted for rabies testing and explore the relationships to regional population and geographic factors.	Compare the various bat species submitted for the number of positives. Relate bat submissions to the five public health regions of the state of Arkansas.
30	Mofan	Gu	MPH	<a href="mailto:Mofan.Gu@arkansas.gov">Mofan.Gu@arkansas.gov</a>		Tuberculosis (TB) screening among people living with HIV in Arkansas: A Ryan White Program Evaluation	Research	The participants will have a general idea of how to perform a program evaluation study	The participants will be able to choose the right data collection and analysis tool for future program evaluation projects	The participant will be able to perform simple program evaluations at work

45	Kisa	Vaughn	Data Collector - Program Coordinator	<a href="mailto:kvaughn2@uams.edu">kvaughn2@uams.edu</a>	LaTunja Sockwell	Passion Project's Additional Health Resources build Positive Outcomes in Women Substance Use Disorder Clients	Program/best practice	Understand how health outcomes among minority women can be improved by introducing evidence based programming	Have a better understanding of the HIV impact on women	Understand the relationship between drug use and HIV/STDs.
56	Berry	Marks		<a href="mailto:bmmarks@uams.edu">bmmarks@uams.edu</a>	LaTunja Sockwell	Healthy Love for Men - HIV Prevention for Men in a Treatment Setting	Program/best practice	Participants will understand the value of HIV education in a treatment setting for men and it's impact on HIV testing and PrEP interest.	Participants will see the benefits of HIV education and how it will reduce stigma among individuals.	Participants will have a better understanding of the HIV risk of participants who use drugs.
8	Darrien	Adams	Student	<a href="mailto:dwadams@ualr.edu">dwadams@ualr.edu</a>	Dr. Janea Snyder	Garden to Grill:Increasing Awareness of Healthy Meal Preparation To Help Combat Obesity	Research	Identify how to select healthier food options and meal preparation.	Identify three ways to increase engagement in physical activity.	Identify three to four contributing factors to obesity.
49	Yan	Guo	MAP	<a href="mailto:yguo@uams.edu">yguo@uams.edu</a>	LaTunja Sockwell	An Overview of HIV/AIDS Prevention Education among Adults in Arkansas Community Corrections	Research	Understand the effectiveness of HIV prevention education among the high-risk population	Gain an insight into the risky behaviors that pertain particularly to Arkansas Community Corrections clients	Discuss the effective ways to reduce HIV stigma among ACC clients through HIV prevention education
60	Eleanor	Hughes	MCHES	<a href="mailto:ejhughes@uams.edu">ejhughes@uams.edu</a>	Jennifer Micek, Isis Martel	Northwest Arkansas Drug Courts: Evaluating Improvements in Social Determinants of Health	Research	The learner will understand what drug treatment courts are and who they serve.	The learner will be able to identify 3 social determinants of health which were measured in the Northwest Arkansas drug courts.	The learner will understand and explain the impact of drug courts for the health of the wider community.

62	Mason	Qualls	MPH Student at University of Arkansas for Medical Sciences	<a href="mailto:mcqualls@uams.edu">mcqualls@uams.edu</a>	N/A	'Addressing the Effect of Provider Distribution on Benzodiazepine Prescriptions in Arkansas'	Research	Demonstrate understanding of public health issues created by benzodiazepine misuse	Discuss the effect lack of healthcare providers has on prescriptions of controlled substances	Compare strategies employed to overcome barriers to improved health in underserved communities.
63	Danielle	DeCarlo	BS	<a href="mailto:dedecarl@uark.edu">dedecarl@uark.edu</a>	Alejandra M. Kaplan, Tiffany L. Marcantonio, Kristian N.	Sexual Refusals and Non-Consent	Research	To assess the differences in how students define non-consent and sexual refusals.	To examine attributes associated with non-consent and sexual refusals.	To develop a formative definition for non-consent and sexual refusals.
67	Jeffrey	Henson	BS, MS	<a href="mailto:jchenson@uams.edu">jchenson@uams.edu</a>	Jeffrey Curran Henson	Effect of ACS Level 1 trauma center designation on management of adult severe TBI patients	Research	Demonstrate understanding of the relative differences in patient treatment outcomes of TBI injury by Trauma Center Level distinction.	Compare types of neurosurgical intervention used in patients with TBI injury.	Understand parameters used to assess treatment efficacy in neurosurgical intervention.
68	Hayden	Scott	B.S.	<a href="mailto:hscott@uams.edu">hscott@uams.edu</a>		National Trends in Management of Adult Severe Traumatic Brain Injury following Brain Trauma Foundation Guidelines: An Analysis of 22,316 Patients at ACS Level 1 Trauma Centers	Research	Explain trends in neurosurgical procedures for adult TBI patients.	List 2 factors that are related to developing trends of neurosurgical care for adult TBI patients.	Discuss methods to overcome the discrepancies in the BTF guidelines to support the use of ICP monitoring in adult TBI patients.
50	Jennifer	Kelton-Huff	PhD	<a href="mailto:jenniferkelton@saumag.edu">jenniferkelton@saumag.edu</a>	Students from Public Health BS Program	Examining the Relationship between Health Profession Shortage Area Averages and Social Determinants of Health within Counties in the State of Arkansas	Research	Understand how health disparities and primary care shortages are associated	Efforts to support and create more assertive efforts for Early Exposure in underserved/underrepresented areas.	How students from a university in a new Public Health Program in Southwest Arkansas are contributing to Public Health Awareness locally.

12	Margaret	Glasgow	BSN, RNC-OB	<a href="mailto:glasgowmargarete@uams.edu">glasgowmargarete@uams.edu</a>	Tina Pennington, MSN, RNC-NIC	Maternal Safety Bundle Education	Program/best practice	The learner will verbalize the 4R's relating to patient safety bundles.	The learner will verbalize the first line therapy for hypertensive emergency in pregnancy.	The learner will verbalize the first line therapy for post partum hemorrhage.
59	Debie	Head	EdD RD LD CDE	<a href="mailto:dhead@uaex.edu">dhead@uaex.edu</a>	Debie Head	Diabetes Prevention Program Collaboration Between Cooperative Extension Service and University of Little Rock Wellness Program	Program/best practice	Attendees will describe National Diabetes Prevention Program required outcomes.	Attendees will identify potential partners for Diabetes Prevention Programs in their communities.	Attendees will understand relevance of disease prevention.
17	KRISTYN	VANG	MPH	<a href="mailto:Kristyn.Vang@Arkansas.gov">Kristyn.Vang@Arkansas.gov</a>		Trend Analysis of Human Papillomavirus (HPV)-Associated Cancers in Arkansas, 2001-2015: The Increase of Oropharyngeal Squamous Cell	Research	Describe the types of cancer associated with HPV.	Describe the major demographic groups affected by HPV-associated cancer.	Name two methods for preventing HPV-associated cancer.
27	Zubaidah	Khalaf	M.D.	<a href="mailto:zo.zo_2008@yahoo.com">zo.zo_2008@yahoo.com</a>	Brandy Sutphin	The Changing Spectrum of Hypertension in Arkansas, 2011 to 2015	Research	To study the changes in hypertension prevalence in Arkansas from 2011-2015.	To study the changes in Arkansas's age-adjusted mortality rates in Arkansas from 2011-2015.	To study the changes in Arkansas's hypertension hospitalization rates from 2011-2015.
47	Lindsey	Clark	MLS (ASCP)CM	<a href="mailto:LKClark@uams.edu">LKClark@uams.edu</a>	John Landosky	The Friendly Driver Program: Creating a Non-Infrastructure Program to Encourage Active Transportation	Program/best practice	List three commonly reported barriers to walking and biking in Arkansas.	Discuss how the Friendly Driver Program can contribute to improving public health.	Evaluate the efficacy of the Friendly Driver Program to date based on data presented.
69	Nikiya	Simpson	MBA	<a href="mailto:nsimpson@uams.edu">nsimpson@uams.edu</a>		PHACS: Public Health in Arkansas Communities Search Web Resource	Program/best practice	Discuss at least 2 ways community members can get information about health and factors of health concerning counties of interest.	Locate the nearest healthcare facilities from your county of interest or place of residence.	Discuss the information provided in the county profile reports available on the website.
